Navjot Singh

Web Developer

About Me

I am a German-speaking web developer (engineering background) with experience in developing web applications with JavaScript and Angular. You can find my projects that include responsive websites and business apps in my public portfolio.

I started my IT journey in India with a Computer operator and programming assistant course. When I came to Germany I had to do an apprenticeship to become a restaurant expert as this was useful for helping in my parents' restaurant. After that, I re-entered IT doing several different projects while getting feedback from experienced developers with a software development school in Munich - Germany. When I progressed very quickly there, I knew it was the right move. Now I'm looking forward to entering the IT world as a junior developer.

Main Stack:

- JavaScript
- TypeScript, Angular, Material Design
- HTML, CSS, Bootstrap

Side Stack:

- Git, APIs (REST), Google Firebase, Scrum

Skills

-
- **Fast Learner:** I am open to learning new skills and have proven over the past few months that I can work hard towards and achieve a goal as I have been working full time as a Restaurant expert simultaneously completed the course.
 - **Strong Analytical Background:** As a trained civil engineer I am used to working with analytical models for problem solving.
 - **Working in a Software-Team:** During learning coding, I did several group projects where I learnt how to develop a software project in a team.
 - **Stamina:** I did a variety of web development projects, so I have been debugging and solving problems constantly. Because I am very patient, I can keep a cool head and solve problems in a structured way.

Professional Experience

Seehotel Wiesler / Restaurant expert

AUG 2021 - PRESENT, Titisee-Neustadt

- Take food and beverage orders and serve to guests
- Wine and food recommendations in German & English
